f. **Management's perception of risk factors :** Rapid digitalization, paperless communication including initiatives like e-governance, paperless offices may impact growth of paper consumption. Any slowdown in the economy on account of economic or general health reasons post Covid-19 pandemic could have an adverse impact on the Company's operations. Free Trade Agreements and some excess capacity available in China, South Korea and South East Asia which, in the absence of demand from any other geography could pose a threat. Although recent anti-dumping duty on imports from Indonesia, Thailand and Singapore has given some relief to the domestic players. Compliance of Environment and other statutory norms/compliance continuous to be challenge. Sourcing wood fibre has been a longstanding challenge in India owing to the Central Government not permitting industrial plantation in India. Volatility in International Pulp Prices, expenses on logistics and handling wastage continue to be a matter of concern. The industry faces shortage of talented and experienced manpower due to lack of good institutes offering technical courses for the pulp and paper industry.
